May Be Fought Soon at  
La FereSPEED OF FRENCH ARMY  
DISCONCERTS GERMANSBarely Possible That Kai-  
ser's Troops May Retire  
to Belgian Frontier

(ASSOCIATED PRESS TELEGRAM)  
New York, March 22.—French troops are in contact with the main German army and what may prove to be the initial stage of the greatest battle of history has opened before the gates of La Fere. For the first time since the great German retreat began patrol and rear guard fighting has given way to the thunder of artillery and the clash of major forces. The Germans are making a stand on a line running north and south of La Fere, from St. Simon to the forest of Coucy, a distance of about 20 miles.

The position selected by the Germans is protected by the Croisset canal and the Ailette river, a tributary of the Oise, but in this line the French have driven a great wedge directly in front of La Fere and reaching to within two miles of that important town. On this wedge is based the hopes of French military critics that General Neville has outmaneuvered Field Marshal Von Hindenburg and that La Fere is doomed and with it the whole of the famous Hindenburg line. Paris believes that the extraordinary speed with which the French have advanced has disconcerted the German plans and renders probable a continuation of the retirement to the Belgian frontier. The official Berlin press throw no light on the situation but it seems certain that a few days or even hours must decide the fate of La Fere.

The situation on the British front is somewhat more obscure owing to the rather vague character of the British official reports. The latest reports today are General Haig has pushed 10 miles east of the Somme at some points. Measured from the point of the British retreat from the vital point of St. Quentin and this estimate is supported by unofficial dispatches from the front.

The German retreat is pivoting from their positions east of Arras and in this pivotal region General Haig reports steady progress but no localities are mentioned which might give a clue to the relative importance of the advance.

Apparently, the spasmodic fighting in the Champagne and Verdun sections has ceased, for the time being at least but important news comes from another and far distant field of the world war. The Persians, driving forward from Mesopotamia, have crossed the Mesopotamian border at one point while a second army is continuing its advance from Kermanshah in support of the British advance from Baghdad. This means that the retreating Turks are being menaced from three sides and, according to allied military observers are threatened by far greater disaster than even the loss of Baghdad.

What may prove to be the opening of a German offensive on the Russian front is reported in today's Russian official.

The German attack was delivered towards the northern end of the front in the region southeast of Vilna, almost directly east of Lida. The Russian position there was breached but afterwards the Germans were driven out of the village they had occupied. A portion of the positions, however, remained in their hands.

The Berlin official statement reports this movement as a raid in force and does not mention the retention of any ground gained. The Russian position was penetrated as far as the second line it is declared, and the raiders returned with 225 prisoners, two guns, six machine guns and other booty.

The German statement also reports a revival of activity on the Rumanian front, with the armies of Archduke Joseph and Field Marshal von Mackensen. Petrograd speaks of Teutonic activity in the region of Fokshani, along the line in south-

"LET US NOT MAKE A FEEBLE WAR," SAYS  
COLONEL ROOSEVELT; GEN. WOOD AGREES

Colonel Roosevelt and Gen. Leonard Wood.

In New York a few days ago Colonel Roosevelt spoke with great earnestness against the United States making only a feeble war on Germany. "If we hit soft we will not acquire Germany's good will," he said. Roosevelt and General Wood are great friends. They both believe in hitting hard if it is necessary to hit at all. If war comes they are expected to play a big part.

BRITISH SOLONS  
SEND GREETINGS  
TO RUSSIAN DUMA

(ASSOCIATED PRESS TELEGRAM)  
London, March 22.—Andrew Bonar Law, member of the British war council on moving in the house of commons this afternoon a resolution of greeting to the Russian duma, said:

"Events in Russia have been following one another with such startling rapidity in the last thirteen days that they have arrested the attention of the whole world even amidst the greatest confusion ever brought upon the earth by the action of man."

"What happened in Russia reminds us of the early days of the French revolution. It is too soon to say all danger is over in Russia."

"It is too soon to feel confident that the new government already has laid a foundation upon which, in the language of Burke 'liberty will have wisdom and justice for her companions with prosperity and plenty in her train' but it is not too soon for the mother of parliaments to send greetings to the parliament of our allied country. It is not too soon to send a message of good will to the new government which is formed with the declared intention of carrying the war to a successful conclusion and which has undertaken the arduous task of driving out the foreign aggressor and establishing freedom and order at home."

FOOD EXPORTS DROP  
40 MILLIONS IN MONTH

(ASSOCIATED PRESS TELEGRAM)  
Washington, March 22.—Food exports from the United States in February were reduced about one third by Germany's submarine campaign. Figures compiled by the department of commerce today show the shipments fell from \$107,000,000 in January to \$67,000,000 in February. Shipments of all kinds dropped during the month from \$613,500,000 to \$456,500,000.

## GRAND DUKE RESIGNS.

(ASSOCIATED PRESS TELEGRAM)  
London, March 22.—All members of the former Russian dynasty have placed themselves at the disposition of the provisional government, according to a Reuters dispatch from Petrograd. Grand Duke Cyril has resigned his command of the naval guards.

RESISTANCE STIFENS.

Paris, March 22.—The Germans made energetic resistance to the French last night between the Somme and the Aisne but after spirited fighting north of Tergnier the French forced them out of several strong positions. The French occupied a number of villages.

GERMANS SAY RETREAT  
IS STRATEGICAL VICTORY

(ASSOCIATED PRESS TELEGRAM)  
Berlin, March 19, wireless to Sayville, March 22.—"A German success," is the characterization given the German retreat on the western front in the headline of an editorial today on this subject by Major Morath, military writer for the Lokai Anzeiger.

"A great resolution was taken," writes Major Morath. "The boldness of the general who carried it out is overwhelming and only the power of von Hindenburg's personality could cause such proof of the grand style of initiative to be accompanied by perfect calm and security."

"That the plan of a strategical shortening of the front was brought about being at great headquarters and that it succeeded must give joy to every German heart."

TWO-YEAR TERM  
IN PRISON FOR  
KAISER'S SPIES

(ASSOCIATED PRESS TELEGRAM)  
New York, March 22.—Albert O. Sander and Charles Wannenber, who pleaded guilty yesterday to a charge of having sent spies to England from this country to gather information for the German military authorities, today were sentenced to serve two years in the federal prison at Atlanta and to pay a fine of \$2,500 each.

NATIONAL PROHIBITION  
PART OF PREPAREDNESS  
DECLARES MR. WHEELER

(ASSOCIATED PRESS TELEGRAM)  
Columbus, March 22.—"If war is declared the resolutions for national prohibition will be used as a part of the preparedness program," said a statement issued today at the anti-saloon league by Wayne B. Wheeler, general counsel.

"It is becoming clearer each day," said Mr. Wheeler, "that a nation cannot be a prepared nation unless it is a sober nation. It will not be a sober nation unless it is a saloonless nation."

Mr. Wheeler declared that the new congress will be drier than the old. The legislative program of the drys in the coming special session of congress will be considered by representatives of the anti-saloon league and allied organizations in Washington on Sunday, April 1, the day before the convening of congress.

CRIMES OF MINISTERSPremier Sturmer Refused  
England's Offer to Give  
Rifles to Russia

(ASSOCIATED PRESS TELEGRAM)  
Petrograd, March 21, via London, March 22.—The Russia Volta in a long unsigned article exposes what it terms the treason of the court clique and alleges that Tsarskoe Selo was a nest of German spies. The paper says that a special committee has been appointed to investigate the "crimes of former ministers during the last bacchanalian night-mare years of the dynasty, on which Rasputin put the final touches. The article says in part:

"The first crime was treason and espionage and had its nest in the palace. The court was partly and chiefly German and the pitiful role of Sturmer in his efforts to drag Russia toward a separate peace was known everywhere. The press of our allies accused Russia of giving Germany Russian military secrets."

"Alexi Khristoff, who was dismissed as minister of the interior because he aimed to divorce Nicholas and Alexandra and kill Rasputin, declared to friends that he had documents showing the connection between the court and Berlin and that Rasputin was surrounded by German spies who were sending out military secrets easily learned from the drunken monk Khristoff himself one of the band of dark forces, did nothing to hinder the treason at Tsarskoe Selo."

"We know from the letter of General Gueckhoff, minister of war, to General Alexieff that Sturmer and Belanoff, refused England's offer to give half a million rifles to the Russian army. Similar facts have been collected by the defence committee of the imperial duma. We know the consequence of General Soukhomirnoff's doings when he was only governor of Kiev and when he surrounded himself with spies. His nearest friend was commander of the Austrian spy organization. Our military secret service knew but could do nothing. The result of his treason was a Russian defeat costing millions of lives. What are we to do now? Allow Nicholas to live in the beautiful Livadia, among the flowers he was so fond of and among the conditions of freedom he always denied to others? Allow him to do this so that he may organize other dark forces for the re-establishment of the Romanoffs?"

NAVY NEEDS 13,000  
MEN; RECRUITING  
EFFORT SPEEDS UP

(ASSOCIATED PRESS TELEGRAM)  
Washington, March 22.—The navy's short 13,514 men of its present authorized enlisted strength of 74,799 and efforts to speed up recruiting are being redoubled. The present month has seen the largest recruitment on record with a net increase of 1,947. Since congress authorized the 74,799 total in September, 451 men have been added to the navy's personnel. It was stated at the department today that the authorized strength is sufficient to put all ships immediately available in commission and no effort will be spared in bringing the force to that figure.

To induce recruiting congress provided that one hundred enlisted men a year should be selected by examination for appointment to the naval academy. Navy officials say that a very high type of officer material is being secured in this fashion. The way to commissions in the marine corps and to responsible and well paid positions as warrant or petty officers is being opened as fully as possible to boys who enlist.

A recruit need serve only one year in the navy to be eligible for examination for appointment to Annapolis and every possible opportunity for study and instruction to enable him to pass the examination is furnished aboard the ships or at the training stations.

NEW HAMPSHIRE VOTES  
\$500,000 WAR FUND

Concord, N. H., March 22.—By unanimous vote today the New Hampshire senate authorized the governor to sign his warrant for \$500,000 to be used in the defense of the state and to meet possible demands for national defense. The house also, a dissenting vote passed the measure yesterday.

It is reported that Edwin V. Morgan, present ambassador to Brazil, will be appointed as United States ambassador to Japan to succeed the late Mr. George W. Guthrie, who died at Tokio. Mr. Morgan is a diplomat of wide experience, having served on various high commissions and in American embassies abroad.

FATE OF CONSULS  
IN GERMANY IS  
CAUSE OF WORRY

(ASSOCIATED PRESS TELEGRAM)  
Washington, March 22.—Alarm over the fate of four American consuls ordered from Germany to Turkey on the severance of relations and last reported held at Munich, Germany, has caused the state department to inquire about them again through the Spanish ambassador. An inquiry was first sent about two weeks ago.

It then developed that Germany would not allow the consuls to go until it was learned if they were personally acceptable to Turkey. Beyond this the information of the department does not go and officials are at a loss to know where the consuls are or what has been the actual cause of so much trouble.

GERMAN PLOTTERS ARE  
ON TRIAL IN NEW YORK

(ASSOCIATED PRESS TELEGRAM)  
New York, March 22.—Trials arising out of investigations which government agents made after bomb explosions on entente ships that destroyed vessels and cargoes worth upwards of \$4,000,000 in 1915 were begun here today in the federal court.

Nine men were indicted last April and six of these were placed on trial today. They are Captain E. W. A. Charles van Kleist, who was superintendent of the New Jersey Agricultural Chemical works of Hoboken; Ernest Decker, electrician on the Friedrich der Grosse, a North German Lloyd liner tied up at Hoboken; and William Parades, Frederick Kerbade, George Praedel and Karl Schmidt, engineers on the same ship.

The defendants are alleged to have conspired to destroy munition-carrying ships leaving this port alone for financing the alleged plot according to government agents, was furnished in part by Captain Karl von Papen and Captain Franz von Papen, former naval and military attaches at the German embassy in Washington.

SALT IS PREVENTATIVE  
OF INFANTILE PARALYSIS

Rutland, Vt., March 22.—Announcement that Dr. Edward Taylor, professor of tropical medicine at the University of Vermont had made an important discovery as to the manner in which infantile paralysis is spread was made today by Dr. Charles S. Caverly, president of the state board of health.

"Dr. Taylor has apparently shown," Dr. Caverly said, "that diseased mosquitoes and throats allow the virus into the central nervous system while normal mosquitoes and throats seem to neutralize the poison. The simple process of cleaning the nose and throat with warm water in which table salt has been dissolved is perhaps as good a preventative as we have."

fore Congress Assembles Are of Vital Import to the  
United States—President Preparing Address

(ASSOCIATED PRESS TELEGRAM)  
Washington, March 22.—Offers of mediation, to prevent actual war between the United States and Germany are expected among the next developments.

Administration officials heard today that a European neutral was contemplating such a plan and they frankly regarded it as another effort, backed by Germany, to divide sentiment in congress and embarrass the president.

It was declared authoritatively today that no proposals of mediation or for discussion would be considered unless Germany first abandoned the campaign of ruthlessness.

All administration officials from the president down, take the position that the United States never has, and does not now desire war with Germany but is being forced into it to protect lives and rights of its citizens against unlawful aggression.

Unless Germany is prepared to completely change her position, it was declared today, offers of mediation and discussion are useless.

Germany it was stated, never accepted former Secretary Bryan's proposal to sign one of his "peace investigation" treaties, which would have bound the United States to inaction for a year, while a commission investigated the situation.

Meanwhile, every preparation for an eventuality is being carried forward by the army and navy, and the president is awaiting the assembling of congress.

Unless there is some great change in the situation before April 2, it is expected he will detail, in his address, how Germany has in fact been making war against the United States by the ruthless operation of her U-boats, and leave it to congress to declare a state of war existing and vote money and men to protect the interests of the United States.

Plans for rendering financial assistance to the entente allies in case of war between the United States and Germany are under the consideration, informally, by federal reserve board and other government officials.

Plans are said to be still in a formative state and may not be definitely shaped until after congress convenes April 2.

With congress called to convene in extraordinary session April 2, to consider further steps to meet Germany's ruthless submarine warfare, administration officials today were awaiting with the tensest anxiety future developments in the situation.

It is realized that between now and the assembling of congress are days pregnant with tremendous import to the United States.

Meanwhile, believing that Germany by the hostile acts of her submarines actually is making war on the United States and determined that it shall be so recognized, government officials are bending all their energies to meet that condition by putting the nation's armed forces and resources in readiness for any eventuality.

Whether the United States shall enter the war in its full sense will depend on the extent to which Germany continues the unlawful aggressions of her submarines.

In congressional circles today the suggestion was heard that the fight for organization of the house be deferred pending action by congress on the international crisis. The senate already has organized and will be ready for business upon assembling.

Steps to put the country in state of preparedness went forward rapidly today. Most activity was in the navy where big preparations are being made to meet the submarine menace. Because of the uncertainty as to what part the army may take, plans for that arm of the military service are not quite so definite, although steps to meeting varying contingencies have been formulated.

WINTRY WEATHER  
HINDERS ADVANCE  
ON FRENCH FRONT

London, March 22.—Telegraphing from the British army headquarters in France today, Reuters correspondent says:

"Wintry conditions continue on the western front with considerable falls of snow, rendering field operations difficult. The bad weather, however, is as unfavorable to the Germans as to ourselves as they cannot get observations on the strength or direction of our advance."

"This advance during yesterday and last night was of the same character as on the previous day, that is to say, it was most rapid in the Sauterre plateau, west of St. Quentin, and was the slowest along the front of about twenty miles, extending southeastward from Arras."

"The latest report is that our cavalry patrols were in contact with German rear guards within five miles of the outskirts of St. Quentin. Enemy resistance was most active in the sector between Arras and Ypres, the latter place being defended by a series of strong points."

OHIO READY TO DO  
WHAT IS NECESSARY  
PRESIDENT IS TOLD

(ASSOCIATED PRESS TELEGRAM)  
Washington, March 22.—Governor Cox telephoned the White House today that Ohio is ready to do everything in its power to back up the national administration in the present emergency. The legislature, Governor Cox predicted, will pass any measures deemed necessary.

OFFERS OHIO'S SERVICES.

(ASSOCIATED PRESS TELEGRAM)  
Columbus, March 22.—That Governor Cox was considering holding the Ohio legislature in session next week in view of the national crisis was indicated today when the governor called President Wilson by telephone to tell the chief executive of the nation that the Ohio general assembly was about to adjourn and asking him if there was any thing he desired it to do.

Governor Cox did not indicate what the President's reply was. Charles Morris, secretary to the governor, said that was for the President to give out if he saw fit.

Governor Cox assured the President that Ohio stands ready to do anything that is necessary.

The house today was expected to pass the Shohi bill for a military census of all men between the ages of 18 and 45.

## ROYAL B. SCOTT MAY BE THE NEXT STATE PRESIDENT

Royal B. Scott, one of the pioneers of the Good Roads movement in this country, may be the next president of the Ohio State Automobile Association.

Mr. Scott, who is a prominent member of the Toledo Automobile Club, is being endorsed for the office by the various automobile organizations of Ohio.

Years ago, long before his connection with the automobile industry, he is now secretary of the Willis-Overland Company. Mr. Scott saw the value of good roads to rural communities, and it was largely due to his efforts in connection with the Stone Roads movement in New York state that a number of the early stone and macadam roads were constructed in that commonwealth. He was also an ardent supporter of the state-wide movement for improved highways, made possible by successive Good Roads bond issues.

Later on, after his coming to Ohio, he played a big part in the affairs of the Dixie Highway Association, and was largely instrumental in the financing of the Toledo-Monroe, Mich., project, a section of the Dixie roadway.

For years Mr. Scott acted as counsel to the excise department of New York and later, while in personal charge of the excise law department, he worked in very close touch with Governor Hughes. He was ranked as one of the ablest criminal lawyers and district attorneys of New York state.

In 1912 he was brought to Toledo by John N. Willis, president of The Willis-Overland Company, and was shortly after placed in charge of the legal department and appointed secretary of the Willis-Overland Company.

He was one of the organizers of the Toledo Automobile Club, being its first secretary and succeeding Isaac Kinsey as president.

Mr. Scott is a member of the executive committee of the American Automobile Association.

His principal hobby is farming. He is now cultivating a big stock and poultry farm at Southern Pines, N. C.

## CIVIC BETTERMENT IS LECTURE SUBJECT BEFORE C. OF C.

Unusual interest attaches to the address on "Civic Betterment" by Byron W. Long of Columbus to the membership council of the Chamber of Commerce at 7:30 tonight. Mr. Long is educational secretary of the Associated Charities and public welfare bureau of Columbus. W. E. Hopkins, secretary of the Newark Public Welfare bureau, who has been instrumental in obtaining the presence of Mr. Long, says he is a strong, forceful speaker, and will bring a message of worth to Newark.

Chairman Pugh of the civic bureau desires that as many of that group shall join with the membership council in this meeting. Members of the chamber generally and the public are invited. Chairman T. C. Heisey of the membership council will preside.

## Gossip From State House

(ASSOCIATED PRESS TELEGRAM)  
Columbus, March 22.—The proposed military census of Ohio provided for in a bill introduced and passed by the senate yesterday was before the house for action today. Its passage was predicted.

Under the proposed law, the governor would have authority to call for a census of all men between the ages of 18 and 45 years to determine who are available for military service and what men should be kept at home to conduct industries.

Senator Shohl, the author of the bill pointed out that its purpose was to place military authorities in possession of names of all men available for military service. Great Britain, he said had crippled its industries by enlisting many men who should have been kept at work in munitions factories.

County Clerks through deputies will take the census. A day will be set when every man between the ages of 18 and 45 will be required to go to a place designated in his voting precinct and give his age, occupation and experience. Failure to respond is made a misdemeanor subject to a fine of from \$25 to \$100.

Both the house and senate worked today on calendars dated as of March 21, the date on which they were supposed to adjourn sine die. They may not get away before late tomorrow and possibly not until Saturday.

With the adjournment of the Eighty-Second General Assembly there was said to be little doubt but what Governor Cox would call the assembly back for special session early next year, although no official

## Rigid Rules Will Govern the Annual Clean-Up; District System for Dirt Removal

Public Service Director Christian has furnished the Civic Bureau of the Chamber of Commerce with a schedule to be observed in hauling away the rubbish during the annual city clean-up, April 2-7 inclusive.

He has divided the city into five districts. One district will be hauled each day during the week. The residents of each district are required to gather together their rubbish pile it at the curb where it is most accessible for the wagons to remove to the city dumps. Whatever accumulations are placed on the streets after the appointed day, will not be removed by the city wagons but must be cared for by the householders who failed to take advantage of his or her opportunity.

Instructions are being formulated and will be published in due time, informing householders just what kind of accumulations will be hauled away by the city wagons.

The following schedule will be observed in collecting the rubbish by the city wagons:

First district—All territory east of the North Fork, north of the B.

announcement to this effect has as yet been made by the state's chief executive.

The governor has intimated, however, to members and others that there would be a special session next year and as a further evidence of the fact, a number of investigating committees already appointed are to report at the end of this year.

Among the subjects to be taken up at the special session will be the revision and codification of the election laws, legislation strengthening the corrupt practices act based upon a report of a legislative committee which is to investigate expenses of the last general election and report recommendations for correcting present laws.

The tax listing law, passed by the present general assembly, as well as the act providing for relief of cities are regarded as mere makeshifts and only temporary and Governor Cox has intimated that he may call the legislature back to take up the taxation problem.

A special session would be limited to action upon measures specified in the call of the governor.

Republicans in the general assembly while supporting the administration bill to provide for an investigation of election laws and expenses last fall charged today that the effectiveness of the probe would be destroyed because of the partisan nature of the method of appointing the committee. They wanted a bipartisan committee. Democrats on the other hand, declared that a bipartisan committee would result in a deadlock. To overcome this, Republican Floor Leader Frank Riegner, of the house, offered to consent to the appointment of an umpire. The investigating committee will have \$10,000 at its disposal with which to make the investigation. It will have the right to employ legal counsel to guide its work. The committee has not yet been appointed.

The chief objection of the Ohio Automobile clubs to the Stokes bill introduced in the legislature as an administration measure to suspend or revoke licenses of automobile owners, if the person running the machine violates traffic laws, is that it makes owners responsible for the acts of their chauffeurs. If the chauffeur should be driving a car while intoxicated or failed to stop when signalled, the owner of the vehicle might be deprived of the use of his car.

Fred Carey, head of the Ohio automobile association, pointed out

that there are already laws on the statute books which provide for the punishment of persons operating automobiles when intoxicated and for other violations of driving laws. The proposed bill is said to be one of the most drastic ever advanced in any state. It has the backing of Governor Cox and was approved by expert legal authorities.

Every high school in Ohio is to get a copy of the legislative annals of Ohio to be printed this year according to a resolution just adopted by the general assembly.

Entered as Second Class Matter  
March 10, 1882, at the postoffice at  
Newark, Ohio, under the act of March  
4, 1879.

**MAYOR'S PROCLAMATION.**  
Mayor Bigbee today issued a pro-  
clamation declaring the first week  
of April to be "Clean-up" week in  
Newark and calling upon all citi-  
zens to unite in the interest of public  
health, public safety, and public  
pride to make the clean-up cam-  
paign a complete success.

Newark was the first city in Ohio  
to establish a spring clean-up cam-  
paign several years ago. The results  
were apparent in improved health,  
fewer fires and greater pride in ap-  
pearance of the town. The move-  
ment spread to other cities and is  
now an annual custom in many  
places.  
Everybody is requested to clean  
cellars, yards, alleys adjacent to prop-  
erty, and all vacant ground and to  
place rubbish free from garbage on  
the streets in front of property pre-  
paratory to removal by the city au-  
thorities. If the rubbish is placed  
in the street close to the curb the  
city will cart it away.

**WASTE OF FOOD.**  
The story of the experience of the  
Gerard party traveling from Berlin  
gives an interesting side light about  
food. They tell how after the scanty  
food conditions in Germany, the  
comparatively free use of food in  
Paris seemed perfect waste. Yet no  
doubt after the party got home, the  
use of food in this country seemed  
far more wasteful than in France.  
And yet our papers are full of food  
scarcity. But few people take much  
pains to conserve such arts of the  
food supply as come under their own  
control.  
The waste of good food in hotels  
and restaurants, when prices are so  
high and so many people are suffer-  
ing, is pitiful. People order lavish  
table d'hote dinners, they demand a  
dozen dishes and only taste a little  
of each, and all the rest goes to the  
garbage pail, or is supposed to.  
Perhaps the cheap restaurants in the  
big cities get more than the public  
realize. But at least there is a great  
and lavish rejection of good food.  
Of late years the European plan  
of operating dining rooms has be-  
come a general. It tends great-  
ly to reduce the amount of food  
consumed. Once people realize that  
they have to pay for what they eat,  
they confine their orders to what  
they really want. It is the only  
sound basis for operating an eating  
room business. Most hotel proprie-  
tors would be glad to put it in. It  
is not yet popular in boarding house  
and resort hotels, where a course  
dinner on the wasterful American  
plan somehow seems more liberal.

In private homes the same spirit  
prevails to a large extent. We all  
help ourselves to a mammoth potato  
when half of it would give all that  
anyone wants. It is our national  
temperament, inherited from the day  
when foods were plentiful and a  
drug on the market. The public pays  
for it all, and it makes prices need-  
lessly high.

**MONEY MADNESS.**  
Our social and industrial troubles  
need not be a surprise to anyone.  
Our preachers and editors and sen-  
sible men generally have long been  
predicting them. When the labor  
organization and railroad heads  
threaten to plunge the country into  
chaos, there are more underlying  
causes than a mere dispute over  
hours of labor and the value of a  
wage.  
The Almighty Dollar has long  
been called the God of the Ameri-  
cans. It is of course a pretty mis-  
just characterization. Our people  
are generous, benevolent, and sym-  
pathetic. Public charity has ad-  
vanced further here than anywhere  
else in the world. But love of money  
was never so developed as among our

people, and we are getting the  
fruitage of it.  
Most of us are affected by the  
hustle of the age. We see our  
neighbors driving automobiles, liv-  
ing in handsome houses, buying  
costly furniture, taking expensive  
outing trips. We all want the same  
thing, and we grab for it anywhere  
we see it.  
The spirit of ruthlessness seemed  
to descend on the commercial world  
during the expansion following the  
Civil war. Bribery became common.  
In order to secure valuable fran-  
chises, clever lawyers were em-  
ployed to defy the spirit of the laws.  
High finance wrecked railroads for  
the benefit of the inside gang.  
With this spirit abroad, it is no  
wonder that working people are af-  
fected by it. The arbitrary demand  
of the railroad brotherhoods, coming  
at a time when we are on the very  
verge of war, simply reflects the  
money getting spirit of the age. It  
is all of a piece with food specula-  
tion, railroad manipulation, stock  
watering, legislative jobbery. Many  
of the people who denounce it most  
bitterly have in the past played es-  
sentially the same game themselves.  
Meanwhile the country at heart is  
soured. It is up to every right think-  
ing citizen to do justice and love  
mercy and condemn in his heart and  
publicly, the money getting spirit,  
in so far as it drives kindness out of  
the heart, and tramples on the  
rights and opportunities of others.

**SPRING.**  
The sun has crossed over from  
the southern hemisphere where it  
has been staying since last Septem-  
ber and with it comes Spring. While  
we shall still have to shovel coal or  
pay for the merry click of the gas  
meter for some time it is really a  
comfort to know that the glad sea-  
son of the year is almost at hand.  
Already we have visions of Buckeye  
Lake to say nothing of the annual  
clean up, spading the back yard and  
swatting the early flies.  
The people who run the vegetable  
garden will always be postponing  
work until evening when it will be  
cool, and when evening comes they  
will postpone it until morning when  
they will be fresh and ready for  
work.  
It was strange that the Germans  
neglected their usual plan in the  
case of this country of marrying one  
of their princesses to a son of one  
of our presidents so as to control our  
home politics.  
**FREE RUSSIA MOVING  
SWIFTLY.**  
(Pittsburgh Gazette Times.)  
The Provisional Government of  
Russia is going about its work in a  
businesslike way that augurs well for  
a strong establishment before the re-  
actionaries can collect their forces.  
They have any intention of con-  
tinuing for control as an earnest of  
their purpose to break up the war  
with vigor, and more firmly to attach  
the army to the new authority. A com-  
mission for army reform has been ap-  
pointed whose duty it will be to con-  
sider many abuses that have been  
universally of discipline and effective  
operations against the foreign foe.  
More important, a sign that the  
industrial population is in hearty  
sympathy with the new order, was  
the workers voting to resume their  
employment in the 112 centers. Of  
all greater support in the necessary  
work of industrial production, the  
masses to the Provisional Govern-  
ment is the temporary retirement of  
all the provinces from the control and  
appointment of the members of the  
government as committees in the  
provinces. This will give the people  
a feeling of real participation in the  
affairs of state. Then the organiza-  
tion of provisional committees to take  
over the work of the local police re-  
moves a serious force that probably  
would have been a dead weight de-  
pendent on a combination of many return-  
ing army divisions on the new govern-  
ment.  
Herr von advanced the Russian  
people are on their feet, and what popu-  
lar government should embrace it  
and take the demand that it is a  
for the emancipation of women.  
The leaders of the revolution are not  
prepared to go that far, but it is  
within the range of probability that  
they will take the step when the time  
comes to ask an extension from the  
people on the question the people  
are to decide for themselves. When  
the people take the reins in their  
own hands after centuries of oppres-  
sion they are not likely to be deterred  
from going beyond the experience of  
more advanced states.

**AMERICA**  
"MY COUNTRY 'TIS OF THEE"

My country, 'tis of thee  
Sweet Land of Liberty,  
Of the sons,  
Land where my fathers died,  
Land of the pilgrim's pride,  
From every mountain side  
Let freedom ring.

My native country, thee,  
Land of the noble free,  
Thy name I love,  
I love thy rocks and rills,  
Thy woods and templed hills,  
My heart with rapture thrills  
Like that above.

Let music swell the breeze,  
And ring from all the trees  
Sweet freedom's song;  
Let mortal tenor merge  
Let all that breathe praise thee,  
Let rocks their silence break,  
The sound expressing

Our fathers' love to thee,  
O'er the land we sing;  
Long may our land be bright  
With freedom's holy light,  
Protect us by thy rights,  
Great God our King.

The Rev Samuel F. Smith, whose portrait appears above, wrote  
"America" on the suggestion of Lowell Mason, the Boston composer,  
upon the latter's return to America from England, with an old air.  
Upon his arrival he sought Mr. Smith, then a young man, who had  
written several hymns, and asked him to write words to the air. He  
complied and forgot the incident until he heard the song rendered by  
children in the Park Street Congregational church, Boston, on July  
4, 1832.

**THE COURT'S DECISION.**  
(Ohio State Journal.)  
The United States supreme court  
decided that the Adamson law is  
constitutional, by a vote of 5 to 4,  
a pretty narrow margin, showing  
that the constitution is vague upon  
this great issue. The court has had  
this question before it for four  
months. It should have been de-  
cided by the first of January. We  
do wonder if the decision would  
have been different if it had then  
been decided. But probably not.  
Anyone might have guessed how the  
court stood by observing the person-  
alities of the bench. It was not  
profundity of thought upon the  
mishy questions involved as it was  
the temper and tendency of the  
members. Almost any good lawyer  
could have told last January how  
the decision would be. And this is  
no reflection upon the members, but  
rather laudation in trusting their  
personalities rather than the strug-  
gling with thought down in the last  
depth. This question had to be de-  
cided and we knew of no tribunal  
under the sun that could have ren-  
dered a better decision than the  
supreme court, for it settled the  
matter and that is as much as could  
be expected.

**NOT SO WONDERFUL.**  
(Harvard Magazine.)  
The average foreigner rarely com-  
prehends the geographical area of  
the United States, as was quite fully  
illustrated by the Englishman and  
his sister who had been traveling  
due West from Boston for five days.  
The end of the fifth day master  
and servant were seated in the  
back seat, and it was observed  
that the man was gazing sadly and  
thoughtfully out of the window. Fi-  
nally, his companion became curious,  
"William," said he, "of what are you  
thinking?"  
"I was just thinking, sir, about  
the discovery of America," replied  
the sister. "I am sure I don't see  
a wonderful thing, after all, when  
you stand this country, do you, now  
sir? Hatter said it was done, 'how  
could it be?'"

Be fearful only of thyself; and stand in awe of none more than thine own conscience. There is a Cato in every man; a severe censor of his manners. And he that reverences this judge will seldom do anything he need repent of.—Fuller.

**Equal Rights.**  
A Los Angeles woman, exercising the rights of a free citizen, visited a club one night and when her husband protested against her action she further exercised her "woman's rights" by throwing a shoe at him. Of course women have a perfect right to go to clubs and they are also privileged to become irritated when remonstrated with, but really, now, ladies, do your husbands make a habit of throwing shoes at you merely because they do not like the theme of your lecture?—Los Angeles Times.

**Beans Without Pork.**  
Bricks without straw, kites without tails, salt without savor, fried chicken without cream gravy, buck-wheat cakes without syrup, greens without jowl, hockade without butter-milk, roses without perfume, lilies without fairness, women without beauty, June without sunshine, meadows without grass, nights without stars and beans without pork would seem upon a parity. But the United States Department of Agriculture declares officially and formally that beans without pork will be a possibility. A joy, even, when Americans learn to eat the soy bean from China.—Louisville Courier Journal.

**Many Trained Men.**  
There is one form of recruiting now being undertaken by the Navy Department which it would seem might profitably be followed by the army. Through the navy recruiting offices it is endeavoring to reach as many as possible of the men who have served enlistment periods in the navy and taken their discharges. They are to be enlisted in a reserve with the understanding that they are to report for duty only in case of an outbreak of war. There are scattered all over the country thousands of men of military age who have served an enlistment period in the army as well as in the navy, and who have returned to civil life because the life in the army or the navy did not appeal to them during times of peace. It may be confidently said that the great majority of these men, if so situated that they could get away without pauperizing their dependents, if they have assumed family responsibilities, would be prompt to tender their services in time of war.—Seattle Post Intelligencer.

**Pardon the Grammar.**  
Of course all books are not worth reading, but those circulating in Houston, Texas, must be of very slight literary merit to have Mrs. Huberta Read Nunn.  
**A Criticism.**  
Editor Melting Pot:—Why do you sidestep the rules so lately laid down and award the prize to a limerick that does not come up to the rules? Does "Same" and "Tame" rhyme with disdain? There were but three limericks in the sixty-one that the second and fifth lines did not rhyme. They were the first and thirty-seventh and forty-second. Yet one of these drew the award. Funny was it not?

limerick game. All contribu-

have the right meter and have the  
right lines rhyme, it is equally neces-  
sary for the Editor to know who  
sends the contribution.

**Did You Know**  
That the wild cherry is indigenous  
to North America? There are two  
trees and one shrub called wild  
cherry all of which belong to the  
rose family. The wild red cherry is  
a tree from 20 to 30 feet high, flow-  
ering in May, common in rocky  
woods in the northern states. The  
wild black cherry, whose timber is  
so much prized for cabinet work,  
often grows 80 feet high and 2 feet  
or more in diameter in the western  
states. It flowers in June. The  
choke-cherry is a tall, slender shrub,  
from 3 to 15 feet high, bearing red  
fruit which is very astringent until  
perfectly ripe, when it is not un-  
pleasant if large and growing on  
good soil.

## Thompson-Ridge.

The marriage of Mrs. Olive M. Ridge and Mr. George B. Thompson took place on Wednesday evening at 7 o'clock at the parsonage of the United Brethren church, Rev. A. B. Cox, pastor, officiating. Mr. and Mrs. Thompson will reside in East Newark.

Miss Marjorie Fisher was complimented by Miss Margaret Conner who entertained a few friends at dinner on Wednesday evening at her home in East Main street for the pleasure of her guest. Miss Fisher formerly lived in Newark, but her home is now in Defiance. The table appointments were in pink and white, the table being centered with a crocheted basket filled with pink and white mints, while the smaller individual baskets were filled with nuts. A delicious three course dinner was served the following: Misses Marjorie Fisher, Helen Stapleton, Rosemary Floyd, Grace Dennison, Besse Ratney, Anna Sheridan and Bernice Floyd.

There will be a meeting of the Visiting Nurse Chapter of The King's Daughters on Friday evening at 7:30 o'clock in the directors' room of the Home Building Association. The meeting will be of importance and all the members are asked to attend.

An interesting program has been prepared for those who attend the musical at the Y. W. C. A. at 8 o'clock this evening.

## Painter-Evans.

The marriage of Miss Henrietta Evans and Mr. Willard Painter took place on Wednesday afternoon at 2 o'clock, at the home of Rev. L. C. Sparks in North Fifth street. The bride is the daughter of Mr. George Evans, while Mr. Painter is employed at the Licking Creamery company. Mr. and Mrs. Painter will reside at 55 West Church street.

On the club day, Wednesday, the members of the Progressive club were entertained at the home of Mrs. W. W. Gard in West Locust street. The following program was given, being presented without change from the club calendar.

"Age cannot wither nor custom stale their infinite variety."

The Women of Shakespeare. Leader, Mrs. Merrill Montgomery; assistants, Mrs. Fred Woodbridge, Mrs. Harry C. Gibson, Mrs. Z. S. Forry.

Some Famous Shakespearean Actors—Mrs. W. H. Lewis.

The home of Mrs. William L. Prout in North Fifth street was prettily arranged with spring flowers this afternoon, when a number of friends entertained with a sewing party, honoring Miss Dora O. Lisle of Granville. The wedding of Miss Lisle and Mr. Z. T. Dyer of Killbuck, will take place this month, and today's party was the first formal announcement of the event.

Luncheon of delightful arrangement was served the following: Miss Dora Lisle, Mesdames Annie Grace Barrows Hatch, Frank D. Hall, A. H. Rickert, Mary E. Foss, C. H. Spencer, J. B. Jones, Walter Symons, Charles Ward, S. C. Priest, Fred Jones, T. M. Edminston, Fred Woodbridge, Omar Crane, Fred Crane, Edward Kibler, William Zentmyer, Frank P. Kenedy, Emma Mase, John Dean W. C. ## If You Want Beautiful Hair

You can easily keep your hair in fine condition if you will be careful what you wash it with. Do not ever use cheap soap or cheaply prepared shampoos that contain too much alkali as they are liable to dry the scalp and make the hair brittle.

The best thing to use and the least expensive is kreamol, a liquid which cleanses the hair and scalp thoroughly. It makes an abundance of rich creamy lather and rinses out easily and removes the dirt, dust and dandruff. Simply moisten the hair with water and rub in one or two teaspoonfuls, massage well and then rinse in clean water. Almost any drug store can supply you with kreamol and a four ounce bottle is enough to last every member of the family for many weeks.—Adv.

Kreamol is sold at Evans' Drug Store (Warden Hotel Block), Newark, Ohio, and Ullman's Drug Store, Granville, Ohio.

## Granville

## [Special to The Advocate]

Granville, March 22.—Members and guests of the Women's Music club enjoyed a program of rare charm and distinction Wednesday afternoon at the home of Mrs. C. D. Coons. French composers of the modern school including Revel and Schmitt, those extreme radicals, were featured and the selections made by a wise committee were pleasingly varied. Whatever may be one's personal views on the subject of this school, the fact remains that the numbers were beautifully interpreted, both by pianists and vocalists.

Miss La Ferre was the efficient leader and Mrs. C. B. White gave the latest news of the musical world. The opening number, Chabrier's "Espana," for two pianos, as played by Mrs. C. B. White and Miss Bessie Larkin of Newark, was a veritable pyrotechnic display of musical brilliancy. They were a musical unit, this teacher and her talented pupil. Mrs. E. P. Johnson accompanied by Mrs. Coons sang two effective numbers of Cesar Franck's.

Miss Lora Wright interpreted Florent Schmitt in two well played piano numbers. Mrs. Morrow and Mrs. Coons in a vocal duet, revealed the beauties in Lacombe's "Nuit d'Été," Mrs. George Stuart accompanist.

Miss Rockwood at the piano disclosed real talent and technical skill in her rendering of Maurice Revel's "Une Bague Sur le Ocean," and received the commendations of the critics for her work.

With Mrs. White at the keyboard, Mrs. J. W. Rohrer sang with her accustomed charm "Phydlie" by Duparc, and "To Thee," by Widor.

The official program closed with an exquisite four part chorus by d'Indy. "Sur le Mer" sung as a quartet by Mrs. Morrow, Mrs. Ullman, Mrs. Ashton and Mrs. Detwiler, accompaniment by Mrs. Stuart.

Miss Larkin, the youthful "virtuoso" of Newark, who had consented to substitute for Mrs. J. S. Jones with only a day's notice, was distinctly the guest of honor—a guest whom Granville music lovers always delight to honor.

Yielding gracefully to the request that she again favor the company with selections of her own choosing, she contributed three numbers of the French school, "St. Saens' "The Swan," De Bussey's "The Minstrel" and Cyril Scott's "Dance de Nigre," played with an individuality and charm of conception, with an exquisite or a forceful phrasing and a finish of style which won for her a real ovation. Miss Larkin seems the very spirit of music, incarnate; her musical ideals are well nigh infallible and her technical equipment equal to the severest demands. Her personal charm and her freedom from mannerisms are valuable assets not to be underestimated.

The Women's Music club already a member of the National Federation, voted yesterday to affiliate with the state organization. Hostesses for the afternoon were: Mrs. C. W. Henderson, Mrs. John Ogilvie, Mrs. E. P. Johnston and Mrs. Paul Beifeldt. Guests: Miss Larkin, of Newark; Mrs. W. A. Chamberlain, Mrs. August Odebrecht, Mrs. W. E. Clemmons and Miss Clara Sheldon.

Prof. and Mrs. Karl Eschman and little daughter went to Dresden today to visit their father, Mr. H. W. Eschman, who has been in impaired health for several weeks.

The Denison Glee Club will give a concert in Mt. Gilead tomorrow evening.

The Chopin historical recital will be given this evening at 8:15 in Recital hall. Miss Ferrar and Miss Braun will play and Prof. Eschman will deliver the lecture. Admission free to these faculty programs.

Sigma Chi entertained Shepardson college friends with a formal dinner party Wednesday evening.

Mr. and Mrs. Charles Deeds were called to Dayton on account of the serious illness of their grandson.

During his stay in several of the coast cities he enjoyed some excellent fishing and brought home several alligators as gifts to friends, having previously expressed two to James Murphy and Edward Schaller.

Mrs. Arthur Huff, whose husband died at the City Hospital Tuesday, was removed from the hospital to their home. Mrs. Huff is suffering from a fractured hip.

Card of Thanks. I wish to thank the friends and neighbors for their kindness and sympathy shown during the illness and death of my beloved wife, Mrs. Sadie Stover. I wish also to thank the people for their beautiful floral offerings, the singers and Rev. Lytle for his consoling words. Mr. George E. Stover 3-22-17

The Easter Egg Crack

A QUAIN old Easter custom observed annually by a French family living in New York, where no festival goes by unheeded, could easily be the keynote of an Easter frolic or entertainment. The eggs to be used are always colored before-hand, when dozens of them are decorated in the old fashioned way—figured calicoes, onion peel, bluing, etc., being used in lieu of any modern process. After the eggs are thoroughly dry the children of the families participating in the ceremonies are allowed to rub them with candles to make them shine. It is claimed that the effect of the wax on the shell as a strength giving element is also a part of the tradition.

On Sunday evening a large silver bowl or tray in the center of the supper table holds the fairly decorated eggs. Then the fun starts. Half of the participants are seated around the table, and the others stand or walk about. Every one helps himself to an egg, holding it in his hand with the point just visible.

The person seated holds his egg up to be gently touched by the egg held by the person standing. If one gets cracked then the other end is turned, and when both ends are cracked the egg is forfeited.

The object of the game is to see who can collect the most eggs, and prizes go to the most successful.

## Doctors Stand Amazed at Power

of Bon-Opto to Make Weak Eyes

Strong---According to Dr. Lewis

Guaranteed to Strengthen Eyesight 50%  
In One Week's Time in Many Instances

## A Free Prescription You Can Have

Filled and Use at Home

Philadelphia, Pa. Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they feel fine all the time. It was like a miracle to me. A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for 15 days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes which induced severe headaches. I have worn glasses for several years both for distance and work, and without them I could not read my own name on an envelope or the type-writing on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

Note: Another prominent Physician to whom the above article was submitted, said: "The Bon-Opto prescription is truly a wonderful remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or mist. I can highly recommend it in case of weak, watery, aching, smarting, itching, burning eyes, red lids, blurred vision or for eyes strained from exposure to smoke, sun, dust or wind. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family. Bon-Opto, referred to above, is not a patent medicine or a secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist and is sold in 10c, 25c and 50c bottles by T. J. Evans and other druggists.

able time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription. Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

## Only Successful Remedy for Treating Gall Stones

MR. W. C. DILLEHAY

Fruitola and Traxo Brought Relief After Doctor Said Nothing But Operation Would Help.

In the opinion of Mr. W. C. Dillehay, 513 Morton St., Nashville, Tenn., Fruitola and Traxo is the only successful remedy for gall stone troubles. In a letter to the Pinus Laboratories, Mr. Dillehay says, "After a leading Nashville physician had failed to relieve my wife, and we were told an operation was necessary, I heard of Fruitola and Traxo and we decided to at least give it a trial. I gave her this medicine as directed and after four doses she was relieved of nearly a quart of gall stones, conclusive evidence that an operation was by no means necessary."

Fruitola and Traxo are compounded from the original Edsall formulas at the Pinus Laboratories in drug stores; a doctor's prescription is not necessary. Fruitola is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the surface's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alternative that is most effective to rebuild the weakened, rundown system.

A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Ill.

**Dandruff Surely Destroys The Hair**

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

## CORN CONTESTS UNDER ONE HEAD

Have Been Transferred to Ohio State University College of Agriculture.

Confusion Eliminated by Arranging For but One Set of Rules For All Boys and One For Men—New Literature Will Be Printed on Yellow Paper.

ALL corn clubs or contests in any way connected with the state are now conducted by Ohio State University College of Agriculture Extension Service. The Junior Corn Contests which have been carried on by the State Board of Agriculture, as well as the new Senior Corn Contest, which was to have been conducted by the same board, have been transferred to the University. The Junior Contest will be joined to the new corn club which was organized this spring by the University following a public endorsement of the governor at Farmers' Week.

In reference to the prize trips to Washington which have been conducted, Clark Wheeler, director of the Agricultural College Extension Service, says, "In accepting the transfer of the work from the State Board of Agriculture, the University feels bound to assume the obligations that come with it, and prize trips, which were already planned, will therefore, for this year, be carried out in order to avoid disappointment."

The most prominent change which will be made will be the formation of

Complete cost is to be computed, and each member will keep an accurate record of labor, cost of seed, fertilizer and other expenses.

Each member is to write a story on "How I Grew My Corn." In determining the standing of the members, the following basis of award will be followed: Yield, 45 points; profit, 40 points, and story and record of crop, 15 points. The club member making the highest grade on the aforementioned basis will be declared the winner.

The new 10-Acre Corn Contest, or Senior Corn Contest, as it was to have been called by the State Board of Agriculture, will be conducted on the same basis as originally planned. The state will be divided into four districts, as shown on the following map. No cash prizes will be offered by the Ohio State University, inasmuch as no funds for this purpose were available to be transferred from the State Board of Agriculture.

However, the Ohio State University will offer championship cups to the winner of first place in the state, and

the boys into corn clubs in order to take advantage of a number of educational features. These include the use of motion picture films illustrating the proper methods of testing seed corn, educational posters, monthly instructional material and personal visits by representatives of the College of Agriculture to club meetings.

Many trips to Washington. Public spirited men and organizations are offering a large number of trips to Washington. In many counties, local prizes are being arranged for. In addition to these, however, each boy who successfully completes his summer's work will receive a medal as an award for his achievement.

In order to avoid confusion, all rules and regulations for the contest will be printed on yellow paper and will carry the official heading of the Ohio State University. This will take the place of all previous literature mailed.

Among the provisions of the new rules for the boys are the following: Each club member must have been under 20 years of age on Jan. 1, 1917. Each member shall grow at least one acre of corn.

**Compressed Air Pressure.**  
The highest known pressure to which air has been compressed is 4,000 atmospheres (about 60,000 pounds) per square inch, but this was a laboratory experiment. The safe limit of pressure for use in the arts today is largely determined by the strength of the retaining vessel, or 3,000 pounds per square inch. To obtain these great pressures especially designed air compressors have to be constructed.

## YOKEL'S SPEED PUTS DOUBT IN MINDS OF SOME MAT FANS

Insisting upon a meeting before a "big crowd" John Sullivan, 145 pound wrestler of East Newark, has been granted his request for a match with Vance Wallace and this will be the main feature of the preliminary program at Friday night's wrestling bill when Paul Bowser meets Mike Yokel in a return engagement. Sullivan is said to be some wrestler. He has pestered Wallace until the latter has lost some of his usual good patience and finally consented to meet him. The match will be a no limit affair. If one or the other of the men gets a fall quickly, a "second stanza" may be permitted. Fishbaugh and Winters also may get a chance to settle the doubt existing regarding last week's match.

One other good preliminary between two good men will be arranged before the night of the match and Cora Livingston and Grace Brady will put on their physical culture exhibition to show that women can make good in the mat game as well as the men. A new set of patent hairpins, guaranteed to keep the locks closely confined, will be tried out in this match.

Bowser and Yokel worked out before a large crowd at the Music Hall last night and Yokel impressed the fans as being in much better condition than when he last appeared here. Some of them were not so confident that Bowser would be returned the winner after seeing the western man go through his paces. He showed considerable speed, yet worked deliberately all the time. Bowser's workout was notable particularly for the speedy pace he set for his partner. His road work has been productive of endurance and wind which may stand him in good stead tomorrow night.

At the Auditorium, the advance seat sale indicates one of the largest crowds of the season. At noon yesterday the seat sale already was larger than that for the Samson match at 8 o'clock the night of the show.

**COTTAGE PRAYER MEETINGS.**  
Further plans for the systematic management of the neighborhood prayer meetings were announced yesterday. Leaders are notified to report each week where the meetings are held the following week. Instructions also were issued to report on the number attending each meeting. Ward captains were selected to look after the details of the work. Bible study at the First Presbyterian church, conducted by Dr. Shaddock. Friday evening at 7:30 o'clock.

**An Unconscious Linguist.**  
Men have traveled safely, if not always placidly, throughout Europe with no other language than English at their command, but few have been so lucky as a correspondent of a New York paper whose English was actually taken for French by the French themselves.

While he spoke no language other than English, this gentleman had never had any trouble in traveling in Europe. In the only instance when he greatly longed to be able to speak another language he was helped out of a predicament in a most unexpected way. At a railway station in Paris he could not make the porters understand that he wanted his baggage. Finally he exclaimed: "Oh, b'gosh!" One of the porters replied, "Oui, ban-gash, oui, oui, bah-gash," and he soon produced the American's trunk. That was the first time he knew that the French have the word "baggage" and learned how they pronounce it.

**Imitation Gems.**  
The opal is more difficult to imitate than is the diamond. But, from an old alum, rubies, which really are diamonds, can be made, and very cheap. If the coloring agent is titanium, the product becomes a genuine and valuable gem. Only in the interior of the stone do these stones differ from the real thing.

**Heavily Laden Sportsman.**  
An American sportsman tells of an incident he recently witnessed at the mouth of the Shalva, or lower barrier, of the Naloo creek, in north China. A native shooter had his signal with him, a very heavy looking weapon. That he might be no question as to its weight, it was placed upright alongside the American. It exceeded his height by two feet two inches, making the piece of ordnance over eight feet high. Sportsmen in this country sometimes complain of the weight of their game-six and a half to seven and a half pounds. So it is astonishing to hold a Chinese hunter carrying a twenty-four pound gun all day.

Yet never can tell. Lots of people have plenty of dash and go without any staving qualities.

**Pot and Kettle.**  
There is a proverb much heard nowadays that we never could see the sense of, "The pot can't call the kettle black." Why not, we should like to know? The kettle is black. It ought to be called black. Who has a better right to speak with confidence about the faults of the kettle than the pot, which has for years hung on the same crane and inhaled the same smoke? If there is anything that would make the pot seem less sooty in our eyes it is giving us a clear reflection of the image of the kettle. Shall no one point out blackness anywhere unless he knows himself to be speckless? Would the pot rise in our estimation if it followed the custom of its critics and said, "The kettle is white, as white as I am?"—Independent.

**Resinol Soap**

**a friend to tender skins**

Many ill-made toilet soaps contain free alkali, a harsh chemical which tends to dry and injure the skin or hair. Resinol Soap contains absolutely no free alkali, and it is added the soothing, healing Resinol medication, which doctors have used for over 20 years in treating skin troubles. Thus it comforts tender skins, and helps nature clear the complexion and keep the hair rich, lustrous and free from dandruff. Sold at all druggists' and toilet counters.

**Quick Way to End Coughs, Colds and Croup**

An Excellent, Inexpensive Home-Made Remedy that is Prompt and Sure.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness or difficult breathing, or if your child wakes up during the night with croup and you want quick help, just try this pleasant tasting home-made cough remedy. Any druggist can supply you with 2 1/2 ounces of Pinex (50 cents worth). Pour this into a bottle and fill the bottle with plain granulated sugar syrup. Thus prepared, you have a pint of really remarkable cough remedy—one that can be depended upon to give quick and lasting relief at all times.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract combined with guaiacal and is noted for its speed in overcoming severe coughs, throat and chest colds. Its millions of enthusiastic users have made it famous the world over.

There are many worthless imitations of this noted mixture. To avoid disappointment, ask for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

**WHAT IS AN INTERNAL BATH?**

If you were to ask a dozen people this question, probably not one would answer correctly, although half a million Americans are now using it with a marked improvement in health and strength.

The Internal Bath of to-day is no more like the old-fashioned Enema than a Vacuum Cleaner is like a whisk-broom.

Now, by means of the "J. B. L. Cascade," simple warm water cleanses the Lower Intestine the entire length, removes all the poisonous waste matter therein and keeps it clean and pure as Nature demands it shall be for perfect health.

You will be astonished at your feelings the morning after taking an Internal Bath by means of the "J. B. L. Cascade." You will feel bright, brisk, confident and as though everything is "working right"—and it is.

It absolutely removes Constipation and prevents Auto-Intoxication.

The Hudson Ave. Pharmacy, R. L. Whitman, Proprietor, 222 Hudson Ave., corner Oak St., Newark, Ohio, will explain it fully to you, and on request will give you a free book on the subject by an eminent specialist. Close students of Russian politics declare that the downfall of Czar Nicholas is due principally to the fact that he was completely under the influence of Gregory Rasputin, the Siberian mystic, who in turn was under control of the German government. Rasputin was murdered a few weeks ago and the new Russian government has already pardoned his slayers.

**A SAFE TEST**

For those who are in need of a remedy for kidney troubles and backache it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Newark people.

Frank J. Trost, electrician, 236 W. Main St., Newark, says: "I suffered for years with my kidneys. I had a lot of lameness across my back, when I was unable to rest good at night or lie on my back. My kidneys troubled me a great deal, as they acted every little while. The kidney secretions were scant and highly colored and at times contained sediment. I often had to get up four or five times during the night on account of my kidneys. Mornings, I felt more tired than when I went to bed. I went to A. F. Crayton & Co.'s Drug Store and got Doan's Kidney Pills. They proved in my case all they are claimed to be and three boxes cured me and put me in good shape."

**A TOURING EPISODE**

By PAULINE D. EDWARDS

My dear Belle, I have had an adventure, and I must tell you all about it. As soon as the spring opened I became wild to go on an auto tour with our new machine, that is admirably fitted for long trips, having a rack in the rear large enough to carry a Saratoga trunk. Of course I couldn't tour alone or with a girl friend. Mamma would not hear of that, and there was nothing for it but she must go with me herself.

We started when the leaves on the trees were well grown, with excellent road maps, and by supplementing the information they gave us at every fork in the road we got on very well. One evening we were nearing a place called Huntingdale, which seemed to be rather a collection of summer cottages than anything else, and we did not have the name of any hotel at which to stop. Passing an autoist who had alighted to examine his engine, I asked him if he could direct us to a public house where we could spend the night. He looked up at me, and our eyes met.

Did you ever look into the eyes of a man for the first time and recognize through them a soul that was in harmony with yours? This I did when I met the gaze of this man. Not only that; I knew he saw in me what I had found in him.

"I am sorry to say," he replied to my question, "that there is no hotel in Huntingdale. You'll not find one that you would care to stop at till you reach Arborville, twelve miles beyond."

I looked disappointed. Mamma was getting tired, and before we could make the twelve miles it would be dark, and we made it a rule to travel only by daylight.

"I can direct you," continued the young man, "to a private family hotel, but they are not taking boarders there this year except myself. However, if you care to try I think you can get in for one night."

We said we would certainly care to try, and the young man, pulling down the hood of his auto and cranking it, got into his machine and led the way to an attractive looking house on an eminence. When we reached it he asked us to remain in our car till he stated our case for us. We thanked him, and he went inside. In a few minutes he returned and said that he had fixed the matter for us satisfactorily. The landlady was confined to her room, but he was very much at home there himself and would see that we were made comfortable. He handed us out of our car, and after our trunk had been removed and our machine started, for the garage we went up into the house.

I wondered that so luxurious an abode should be used for boarders. Hotels and boarding houses be they ever so well furnished are bound to show some wear.

Mamma thought she was too tired to dress for dinner, but I told her in such a place it would not be safe to dine in traveling costume, so we both put on evening dress. On entering the dining room we saw that places had been set for three, and the only person in the room besides ourselves was the young man who had been our conductor. Seeing that he was in evening dress I was very thankful that mamma and I had decided to change our costumes.

"Our landlady," he said, "has commissioned me to take her place at table and do the honors in her stead. I presume I shall have to introduce myself, having no one to introduce me. I am Edgar Sterling, at your service."

Mamma introduced herself and then introduced me, after which a waiter who seemed rather a butler than a waiter served us, and we had a delicious dinner. Wine was opened without our having ordered it. Both mamma and I declined it when the waiter was about to pour it into our glasses, whereupon Mr. Sterling said:

"The terms in this house include wine, so you are not under any obligation to me."

We permitted the waiter to fill our glasses, but since the wine served was champagne we concluded that the bill for our one night's stay would be something frightful. But I had fallen under a spell induced by the devotion of Mr. Sterling, expressed in his eyes, a pleasing smile he had and his constant attention to my every wish.

After dinner mamma remained below but half an hour, when she went upstairs to bed. I passed the most delightful evening of my life, and mamma was obliged to call me several times before I could tear myself away from my entertainer.

The next morning we breakfasted alone, the waiter having informed us that Mr. Sterling had gone out early in his car. We asked for our bill, but were told that the landlady was not in a condition to make it up and if we would leave our address a statement would be sent us when she recovered.

Upon our return home we expected to find our hotel bill. We were still expecting to find it when one evening Mr. Sterling called and put a new face on the matter. He confessed that he had taken us to his own residence, that the landlady was a myth and that the waiter was his butler. He apologized for his deception by saying that it had occurred to him to take this course rather than attempt to force before us the hospitality of a stranger.

Now, wasn't that just too delightful an episode to keep?

From Mr. Sterling's attention to me I expect soon to tell you of another episode.

Lots of men have no use for a fellow who objects to being used.

**ASTONISHING RESULTS FROM RHEUMATIC REMEDY**

Eases Pain—Soreness, Swelling, Stiffness Taken Out of Joints and Muscles.

Rheumatic plasters, liniments, salves, oils, baths and serums have proven ineffective in the treatment of rheumatism. They have failed because the condition causing the intense suffering and agony is deep-seated and only internal treatment that seeks out the cause—roots it out—dissolves it—banishes it entirely from the system—can afford any true relief or affect a real, lasting cure.

For 26 years Dr. Whitehall's Rheumatic Remedy has been before the public. Thousands of sufferers from rheumatism in its many forms have obtained the relief they sought by taking this old and reliable remedy. Rheumatic aches and pains in legs and backs have vanished, soreness and swelling have been taken out, stiff joints have been limbered, crutches have been thrown away and canes discarded.

Dr. Whitehall's Rheumatic Remedy goes straight to the seat of trouble. Its purpose is to dissolve uric acid and other poisons causing pain, swelling and stiffness—to cleanse the system of these health-destroying forces and restore health and strength.

The many years this preparation has been on the market and the great number of men and women who have had their pains and aches eased through its use is mute testimony of its value. All druggists sell Dr. Whitehall's Rheumatic Remedy, and a 50c box undoubtedly will give great relief, even in aggravated cases.

## GAINS 15 POUNDS THROUGH TANLAC

J. E. Branfield Tells What New Tonic Did For Him.

GETS RID OF TIRED FEELING

"I never made a better investment in my life than I did when I got my first bottle of Tanlac," said J. E. Branfield, who lives in Cochocton and owns the Park View billiard hall.

"The trouble with me was my stomach was all out of whack," he continued.

"Everything I ate disagreed with me. I felt tired and worn-out all the time. I didn't feel had enough to go to bed, but I was just half-sick."

"I was restless at night and couldn't sleep good. In the mornings I was nearly as tired as when I went to bed. Sometimes I got up with a dull headache. Sour tastes would come up in my throat."

"One night I was reading the paper and I noticed a story about how Tanlac had helped some fellow who felt about the way I did. I decided to try Tanlac myself."

"Well, sir, I'm sure glad I did. Tanlac straightened me out in no time. I can eat anything I want without feeling bad afterwards."

"I have gained about 15 pounds, and I sleep fine now from the time I get in bed until the alarm rings. Those headaches are all gone, and I don't have sour tastes come up in my throat any more."

"I feel rested in the mornings now, and that tired draggy feeling has left me. It's no trouble to be jolly and in a good humor now for that's just the way I feel."

"I owe my good health to Tanlac, and I want everybody around here to know about it, for I think it is a person's duty to tell other people when he finds something that will help them."

"I know it will help anybody that feels like I did, and I'll be glad to answer any letters or tell anybody personally about the good Tanlac did for me."

## Examine your teeth tonight

—after you clean them.

You will find, in all probability, an accumulation of tartar on the enamel and bits of food deposit hiding between the crevices. YOUR DENTIST PRICE does not FULLY CLEAN! Loss of teeth is caused usually by one of two conditions—Pyorrhea or decay, both of which develop, as a rule, only in the mouth where germ-laden tartar is present.

SENRECO, the recently discovered formula of a dental specialist, is two-fold in its action. First, it REALLY CLEANS, embodying specially prepared, soluble granules unusually effective in cleaning away food deposits. Second, it is particularly destructive to the germ of Pyorrhea. Yet it is perfectly safe, containing neither injurious chemicals nor hard grits.

Avoid Pyorrhea and decay. Get Senreco from your dealer today. In large tubes, 25c.

## THE THEATRES

### ALHAMBRA

"The Blue Paradise," which the Messrs. Shubert will present at the Auditorium tonight, is the most successful production of the season. It is a musical comedy in two acts, which has been running in New York City for almost 400 consecutive performances. It is a new record of theatrical popularity for a musical play on Broadway. The showings reports (and the out-of-town visitors who saw "The Blue Paradise" in the metropolis) have caused the fate of this delightful musical comedy to spread to all parts of the country and to induce large audiences in every place it is presented. Almost 100 persons are required in its interpretation and in the cast of exceptional excellence the Messrs. Shubert have provided in "The Blue Paradise" a cast of 100 persons. The cast includes: Miss Norton, Charles Bowen, Juliette Lange, Gustav Baci, Gipsy Dale, Charles Derickson, Robert Lee Allen and other players of equal prominence. There is a large chorus of singing and dancing beauties from Broadway and "The Blue Paradise" company carries its own orchestra. There still remains many choice seats and it is hoped that the S. R. O. sign is hung out on this attraction as the Messrs. Shubert have promised the local manager many big things, should this engagement prove a paying one.

"A Child of the Wild," June Caprice, the little Fox star, and her company of players who went to Chattanooga, Tenn., to make a series of "A Child of the Wild," had often heard of Southern hospitality. They knew it could go to the lengths it did in that city after June's appearance at the Alcazar theatre. The city was literally thrown open to them. Her Manager, Mr. of the Alcazar, gave each member of the company a pass to his theater good as long as they remained in Chattanooga. Other theaters extended similar favors. June Caprice, together with Charlie

Chaplin in "The Floorwalker," will be the Auditorium features for Saturday.

"Truthful Tuliver," William S. Hart makes his appearance in a new characterization in the "Truthful Tuliver" Bee play, from the pen of J. G. Hawks, entitled "Truthful Tuliver."

"Truthful Tuliver" is the absorbing tale of a fighting newspaper man who drove wickedness out of Glory Hole and in accomplishing it became instrumental in the working out of two romances. Its action is laid in a small Arizona mining hamlet in the early sixties, and revolves about the timely organization of a journeymen editor with a big heart, a clean soul and two guns.

This wonderful five reel photoplay, together with the best features, a two reel Keystone comedy, also a singer who has promised to sing nothing but the latest New York hits, will be the Sunday feature at the Auditorium.

"September Morning Glories," Chaplin in "The Floorwalker," will be the Auditorium features for Saturday.

"Truthful Tuliver" is the absorbing tale of a fighting newspaper man who drove wickedness out of Glory Hole and in accomplishing it became instrumental in the working out of two romances. Its action is laid in a small Arizona mining hamlet in the early sixties, and revolves about the timely organization of a journeymen editor with a big heart, a clean soul and two guns.

This wonderful five reel photoplay, together with the best features, a two reel Keystone comedy, also a singer who has promised to sing nothing but the latest New York hits, will be the Sunday feature at the Auditorium.

"September Morning Glories," Chaplin in "The Floorwalker," will be the Auditorium features for Saturday.

"Truthful Tuliver," William S. Hart makes his appearance in a new characterization in the "Truthful Tuliver" Bee play, from the pen of J. G. Hawks, entitled "Truthful Tuliver."

"A World of Pleasure," announced at the Auditorium for next Wednesday, matinee and night. This attraction is one of the great spectacles of the season. It is a musical comedy in two acts, which has been running in New York City for almost 400 consecutive performances. It is a new record of theatrical popularity for a musical play on Broadway. The showings reports (and the out-of-town visitors who saw "The Blue Paradise" in the metropolis) have caused the fate of this delightful musical comedy to spread to all parts of the country and to induce large audiences in every place it is presented. Almost 100 persons are required in its interpretation and in the cast of exceptional excellence the Messrs. Shubert have provided in "The Blue Paradise" a cast of 100 persons. The cast includes: Miss Norton, Charles Bowen, Juliette Lange, Gustav Baci, Gipsy Dale, Charles Derickson, Robert Lee Allen and other players of equal prominence. There is a large chorus of singing and dancing beauties from Broadway and "The Blue Paradise" company carries its own orchestra. There still remains many choice seats and it is hoped that the S. R. O. sign is hung out on this attraction as the Messrs. Shubert have promised the local manager many big things, should this engagement prove a paying one.

"A Child of the Wild," June Caprice, the little Fox star, and her company of players who went to Chattanooga, Tenn., to make a series of "A Child of the Wild," had often heard of Southern hospitality. They knew it could go to the lengths it did in that city after June's appearance at the Alcazar theatre. The city was literally thrown open to them. Her Manager, Mr. of the Alcazar, gave each member of the company a pass to his theater good as long as they remained in Chattanooga. Other theaters extended similar favors. June Caprice, together with Charlie

Chaplin in "The Floorwalker," will be the Auditorium features for Saturday.

Fifi is a little French actress whose self-esteem is in inverse ratio to her diminutive stature. Despite the fact that the first company which she joins is a dismal failure, she still believes in the value of the art. She is a great actress and she determines to come to Paris to set the world on fire by her marvelous ability. Molly Elliott Seawell, the author of the story, never reached the point in the tale where Fifi realizes this particular ambition, but there are other things which become very dear to the little girl before she has been in Paris very long.

## TRAIN YOUR HAIR AS AN ACTRESS DOES

No class of people devotes as much time to beauty as do actresses, and no class must be more careful to retain and develop their charms. Inquiry develops the information that in hair care they find it dangerous to shampoo with any makeshift hair cleanser. The majority say that to have the best hair wash and scalp stimulator at a cost of about three cents, one need only get a package of canthorin from your druggist; dissolve a teaspoonful in a cup of hot water, and your shampoo is ready. This makes enough shampoo liquid to apply it to all the hair instead of just the top of the head. After use the hair dries rapidly, with uniform color. Dandruff, excess oil and dirt are quickly dissolved and entirely disappear when you rinse the hair. After this your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you, while the stimulated scalp gains the health which insures hair growth.—Advertisement.

Thousands and thousands of people, says Peterson, learn every week that one 25-cent box of Peterson's Ointment will abolish Eczema and bachelors every day are worth more to me than money.

I had Eczema for many years on my head and could not get anything to do any good. I said to myself, 'I am one box and I owe you many thanks for the good it has done me. There is a blotch on my head now and I couldn't help but thank Peterson for the cure he gave me. Mrs. Mary Hill, 420 The Avenue, Pittsburg, Pa.

I have had itching piles for 15 years and Peterson's is the only ointment that relieves me, besides the piles seem to be gone. A. B. Ruger, 1127 Washington Ave., Racine, Wis.

Use Peterson's Ointment for old sores, salt rheum and all skin diseases. Druggists everywhere. Sold by Evans' Cut Rate Drug Store.

# Dress-Up Week March 23 to 31

This is the week that all Newark folks are going to dress-up, and look as happy as they feel, for its the National Dress-Up Time. We are going to show our happiness in our attire. Every happy man and woman will wear their Sunday best. Every child's heart will be gladdened in her newest dress. Last year's coat and suit, dress and hat will be laid aside, and new ones take their places. Today the American woman has but to visit the stores and make her selections. She need not face the weeks of unrelenting toil which yielded the clothes of women in other ages. If you are not prepared to look your best during this spring Dress-Up season, we invite you in to see our complete showing of all that's new in suits, coats, dresses, dress skirts and waists. See these newest spring fashions and make your selections before the rush.

## Separate Coats Were Never Prettier

The coat season will be a gay one, with the brilliantly hued colorings. There is a certain air of youthfulness to the new spring coats that is peculiarly appropriate for women of various ages. The materials too, seem especially adapted to the styles for which they have been selected. In addition to smart checks there is a big selection of all the new plain colors, enabling us to meet each individual requirement. Coats embody the new pleated effect or Barrel Silhouette, and reflect all sorts of new belt and pocket treatment of individuality, as well as novelty ideas in button trimmings and fancy stitchings. Three are coats of black satin, puppy skin taffeta, gros-de-longre, Bolivia, Poplin, Lupin, Burella, Velour, etc., in the accepted spring colors. Prices vary with Fabric and Fashion. \$6.50 to \$65.00

## HOW TO BE RID OF DISGUSTING DANDRUFF

The only way to get rid of disgusting, unsightly dandruff is to correct its cause. Shampooing merely cleanses the scalp for a few days, then the scales form again as thick as ever.

To destroy the dandruff germ and get rid of the dandruff for good, part the hair and apply a little of the genuine Parisian Sage directly on the bare scalp and rub it in with the finger tips until absorbed. You will surely be amazed at the result of even one application, for your hair and scalp will look and feel 100 per cent better.

Only a few days' massage with Parisian Sage should be needed to destroy the germs that cause the dandruff to form. The scalp becomes healthy, the hair will grow better and show more life and vitality and you should no longer be troubled by dandruff. Faded, dull or lifeless hair is quickly restored to beauty by this simple process, which is absolutely harmless and will not stain the hair or make it cross.

Parisian Sage can be obtained from W. A. Birman and druggists everywhere. It is not expensive.—Advertisement.

## When Eyes Inflamm,

Smart or Achill's nature's cry for help. Use Murket Eye Remedy to restore normal conditions. Try Murket after Gold-Moon or the Kojin. "Murket" wins your confidence. At Druggists—40c.

### Dress-Up Week Begins Tomorrow Evening

## We Invite You to a Style Exhibit

### More Than Worthy of The Name

**It Will Be a Pleasure For You TO INSPECT THIS CHARMING DISPLAY OF SUITS**

We say these are the prettiest suits of the season, and the hundreds of women who have seen them render the same verdict. We are not going to dwell on their many excellent points, but we do want to urge you to come in and see them.

They are styled by the foremost designers of the country, from such desirable materials as Poirer Twill, Gabardine, Sport Jersey, Wool Poplin, Mannish Serge, Shepherd Checks, etc. And such a range of shades—from the vivid hues of Gold, Canary, Apple Green, Magenta and Rose to staple Black and Navy. Many tailored models are set off with rows of silk stitching and fancy pockets, then there are the sport styles and those that show the many variations of the pleated effect.

It has been our good fortune, in seasons past, to offer splendid garment values, but this spring far surpasses anything we have heretofore attempted. This statement may sound a little overdrawn, but a careful comparison with showings elsewhere will substantiate its truth. An inspection of these extra value suits will bring out the fact that it is not necessary to spend a great deal of money for a well tailored, stylish garment. Let us show you the hundreds of suits priced at—

**\$11.95 — \$13.95 — \$16.95 — \$18.95 — \$21.95 — \$23.95 — \$26.95 — \$29.95**

Moderate Prices and Distinctive Styles Characterize **THESE LOVELY NEW FROCKS**

Frocks were never more in demand than right now, and no wardrobe is complete without one. Your own idea of the new modes will find expression in this unusually complete assortment. The range of styles is so extensive that each individual taste can be satisfied. Taffeta and Georgette combinations are the keynote of the later fashions and come in all shades—**\$13.95 — \$16.50 — \$18.75**

Our showing of children's hats and bonnets is now complete. A style for every age and face from baby up to the miss of 16 years.
